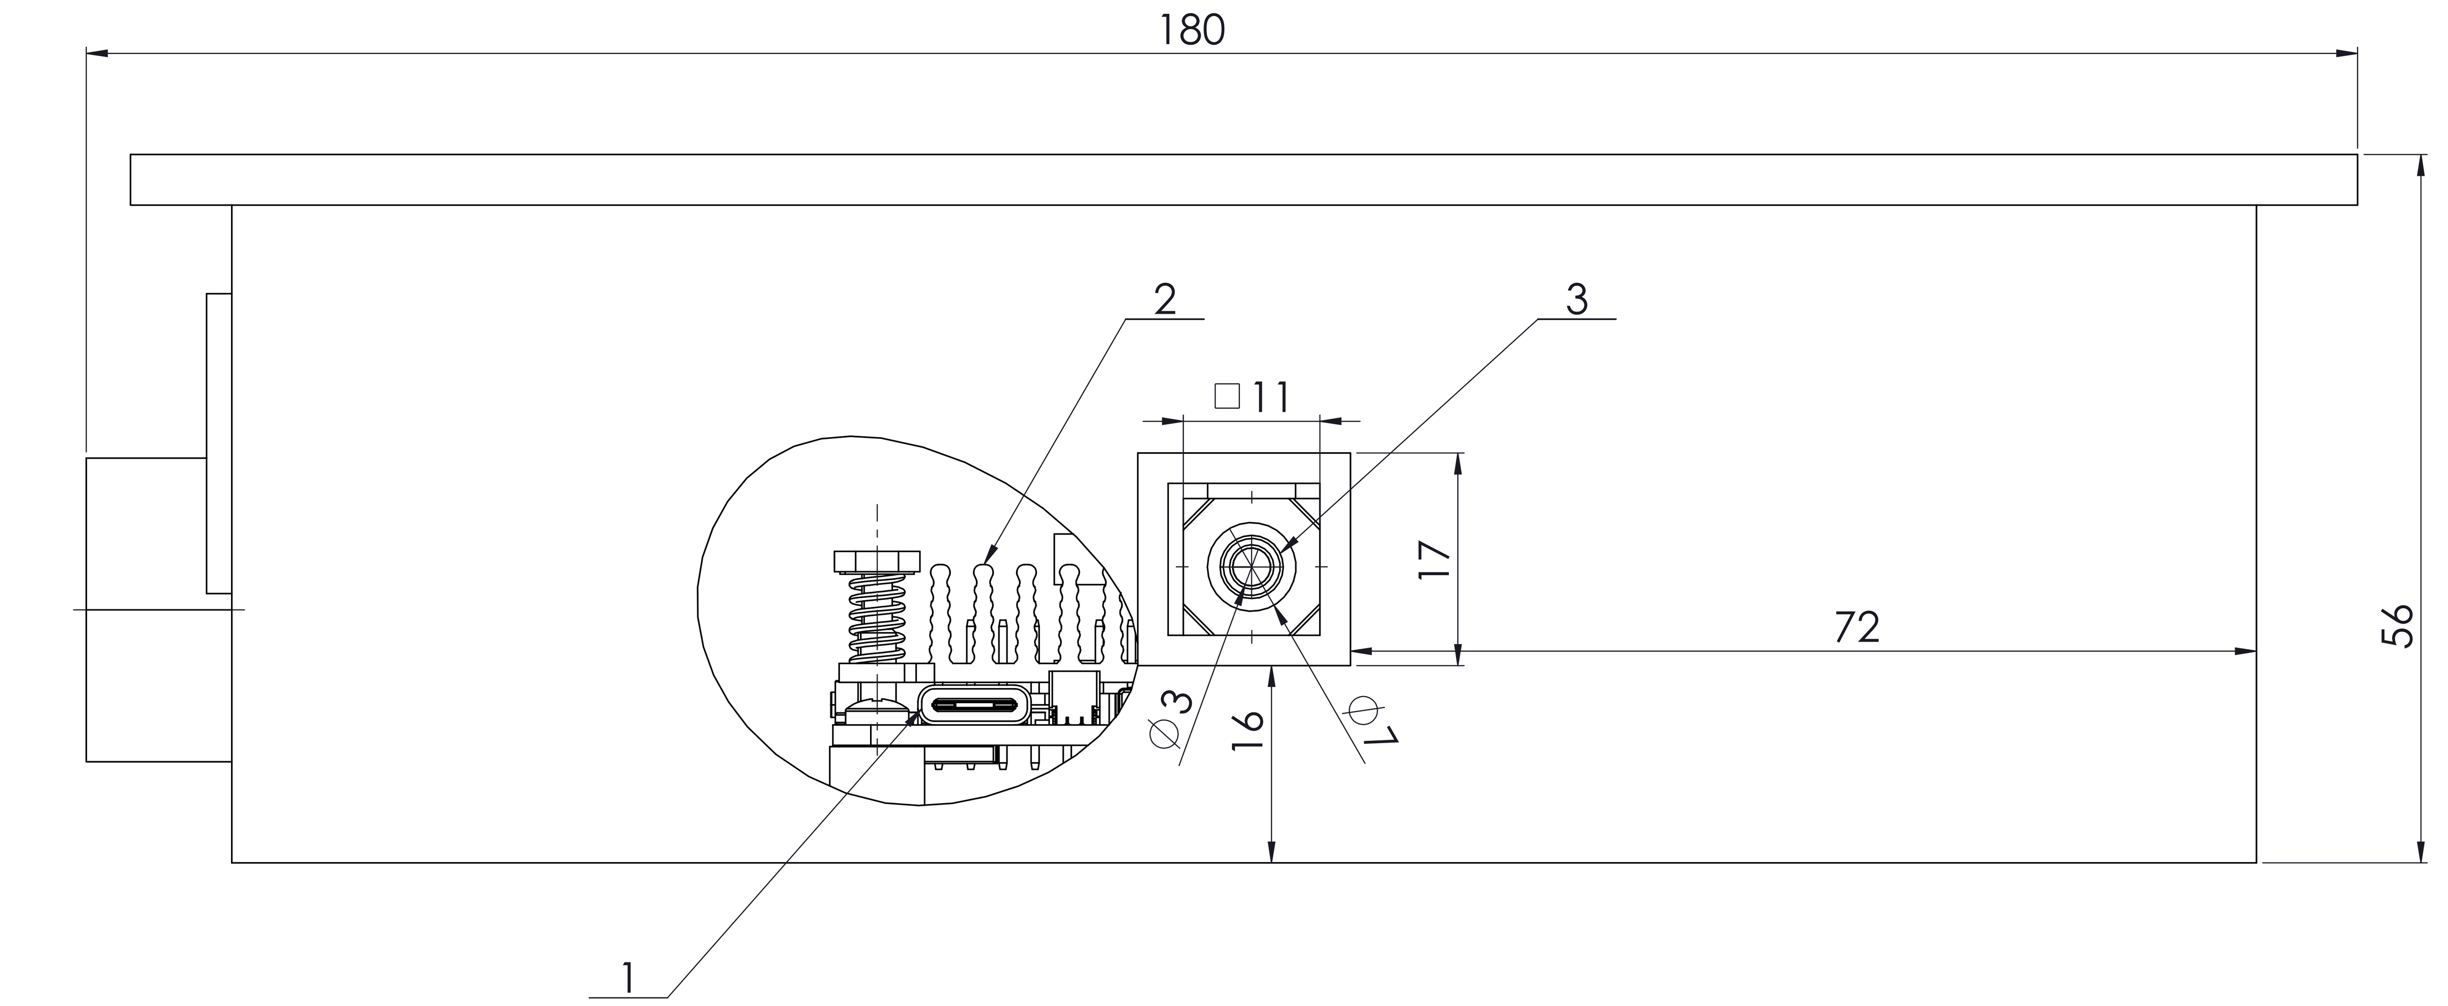
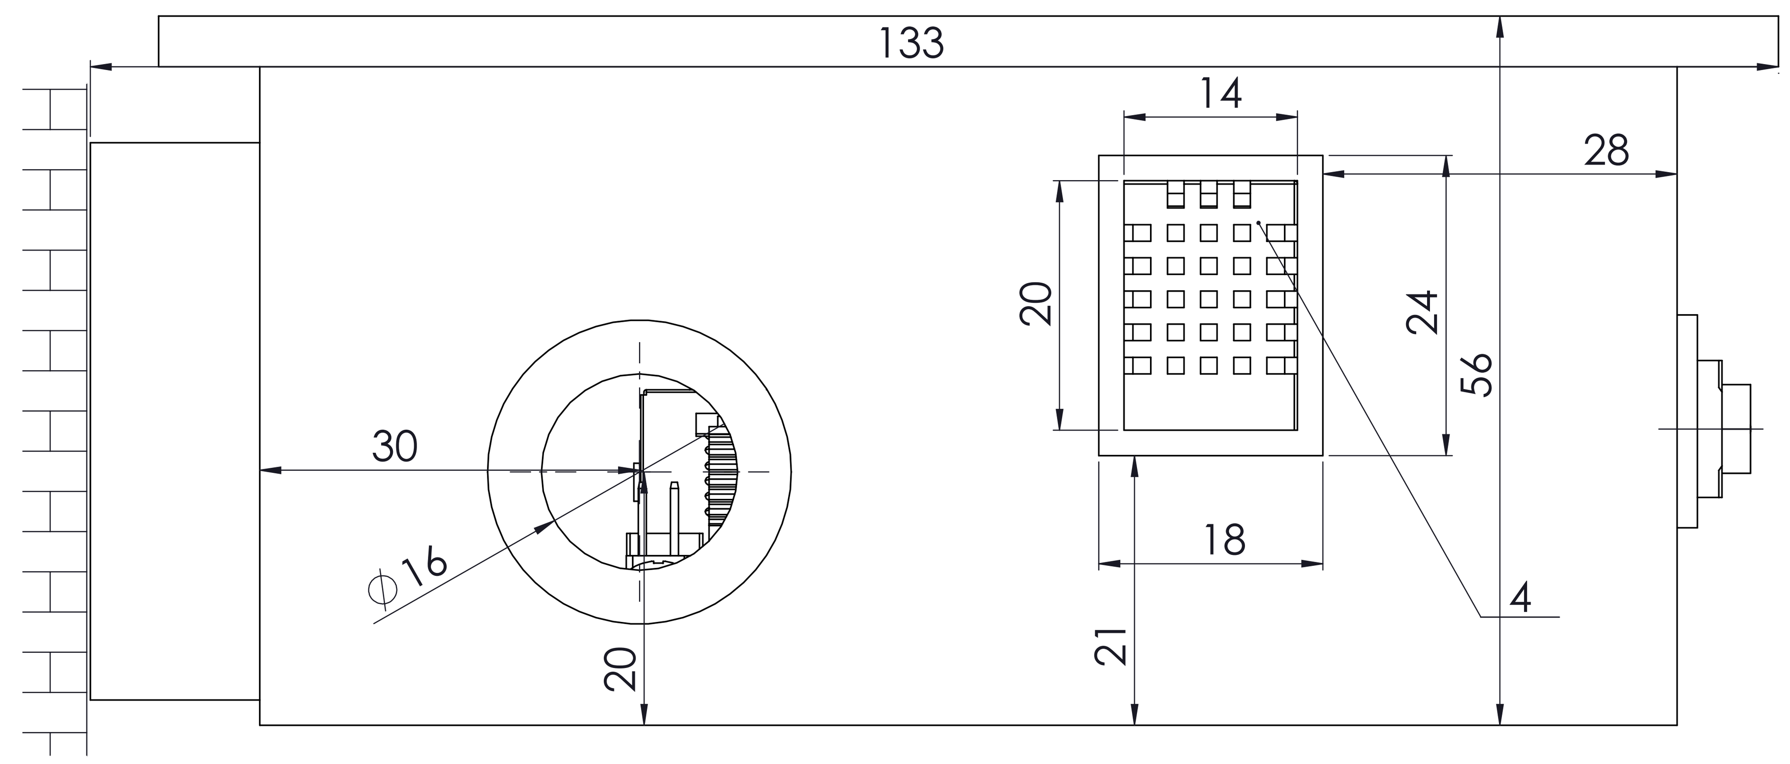
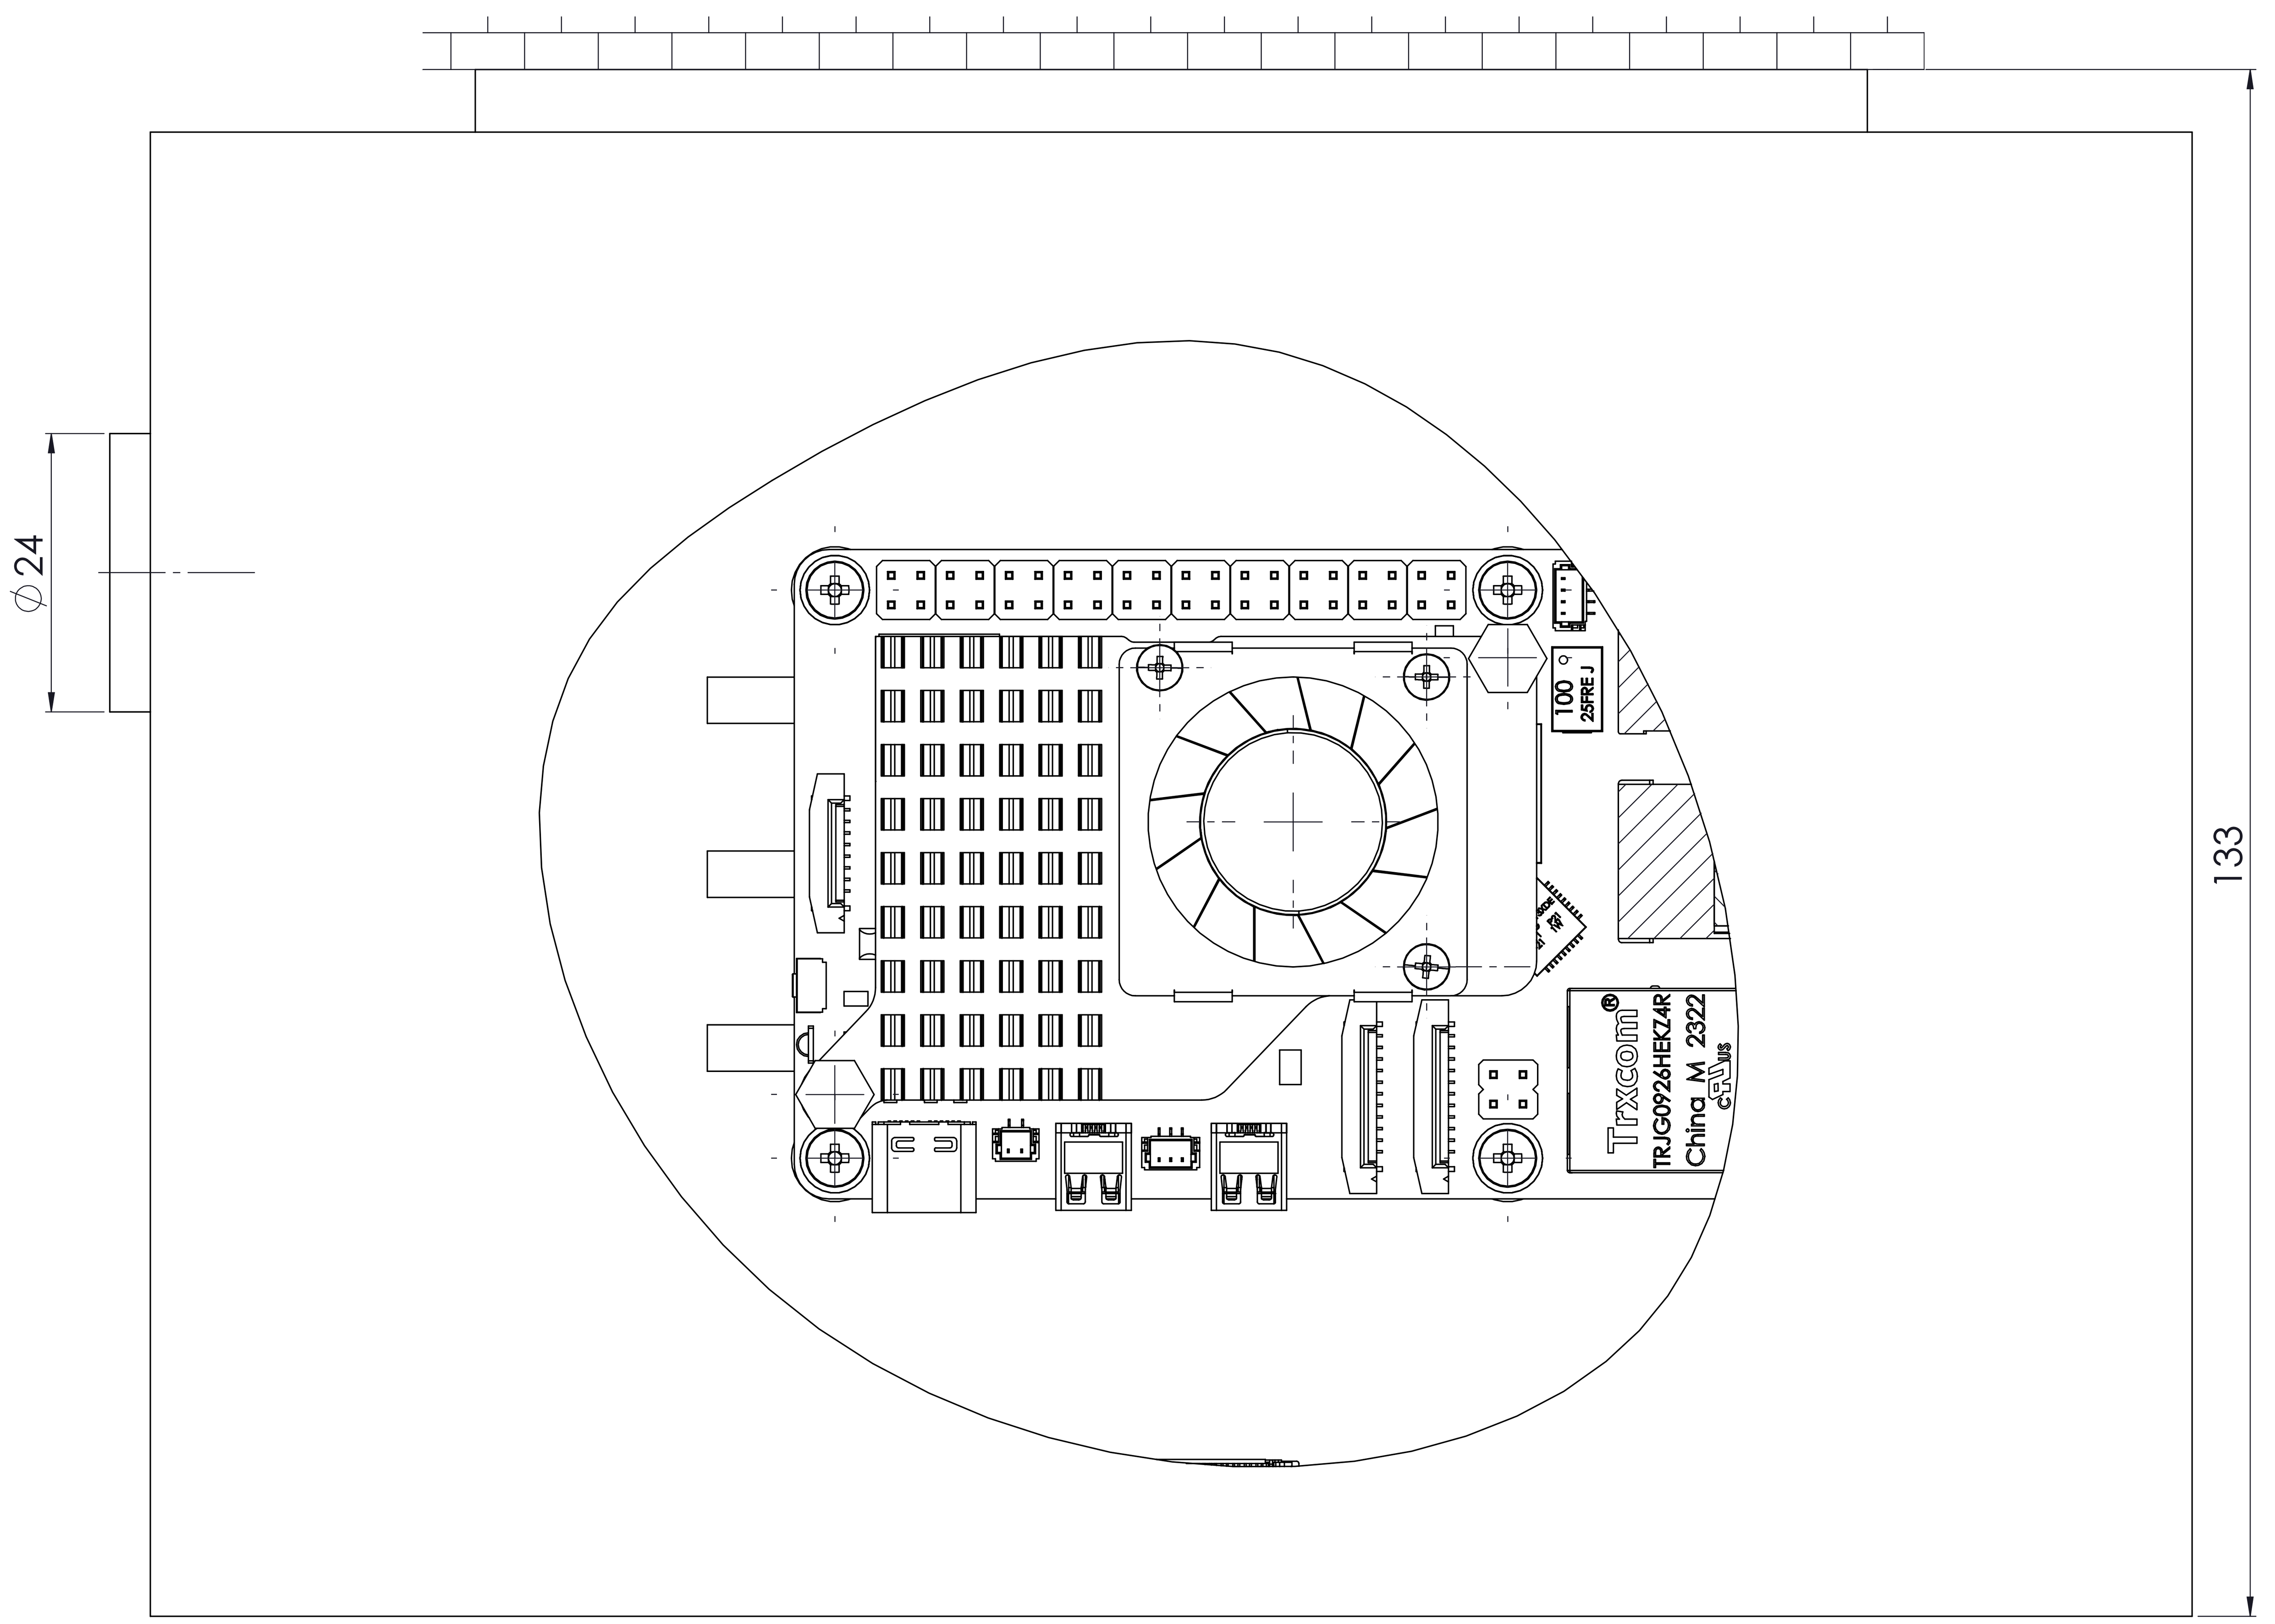
MERS BM 26 2165 01 01 00 AD







1. Raspberry Pi 5 microcomputer mounted on the custom enclosure.
2. Raspberry Pi Active cooler mounted on Raspberry Pi 5.
3. Raspberry Pi camera module 3 Wide with its cutout.
4. AM2302/DHT22 temperature and humidity sensor.
5. Powered by 27W USB-C power supply from this cutout.
6. Custom mount supporting various methods.
7. The weight of the device is ~290 g.
8. Overall dimensions are 179 x 56 x 133 mm.

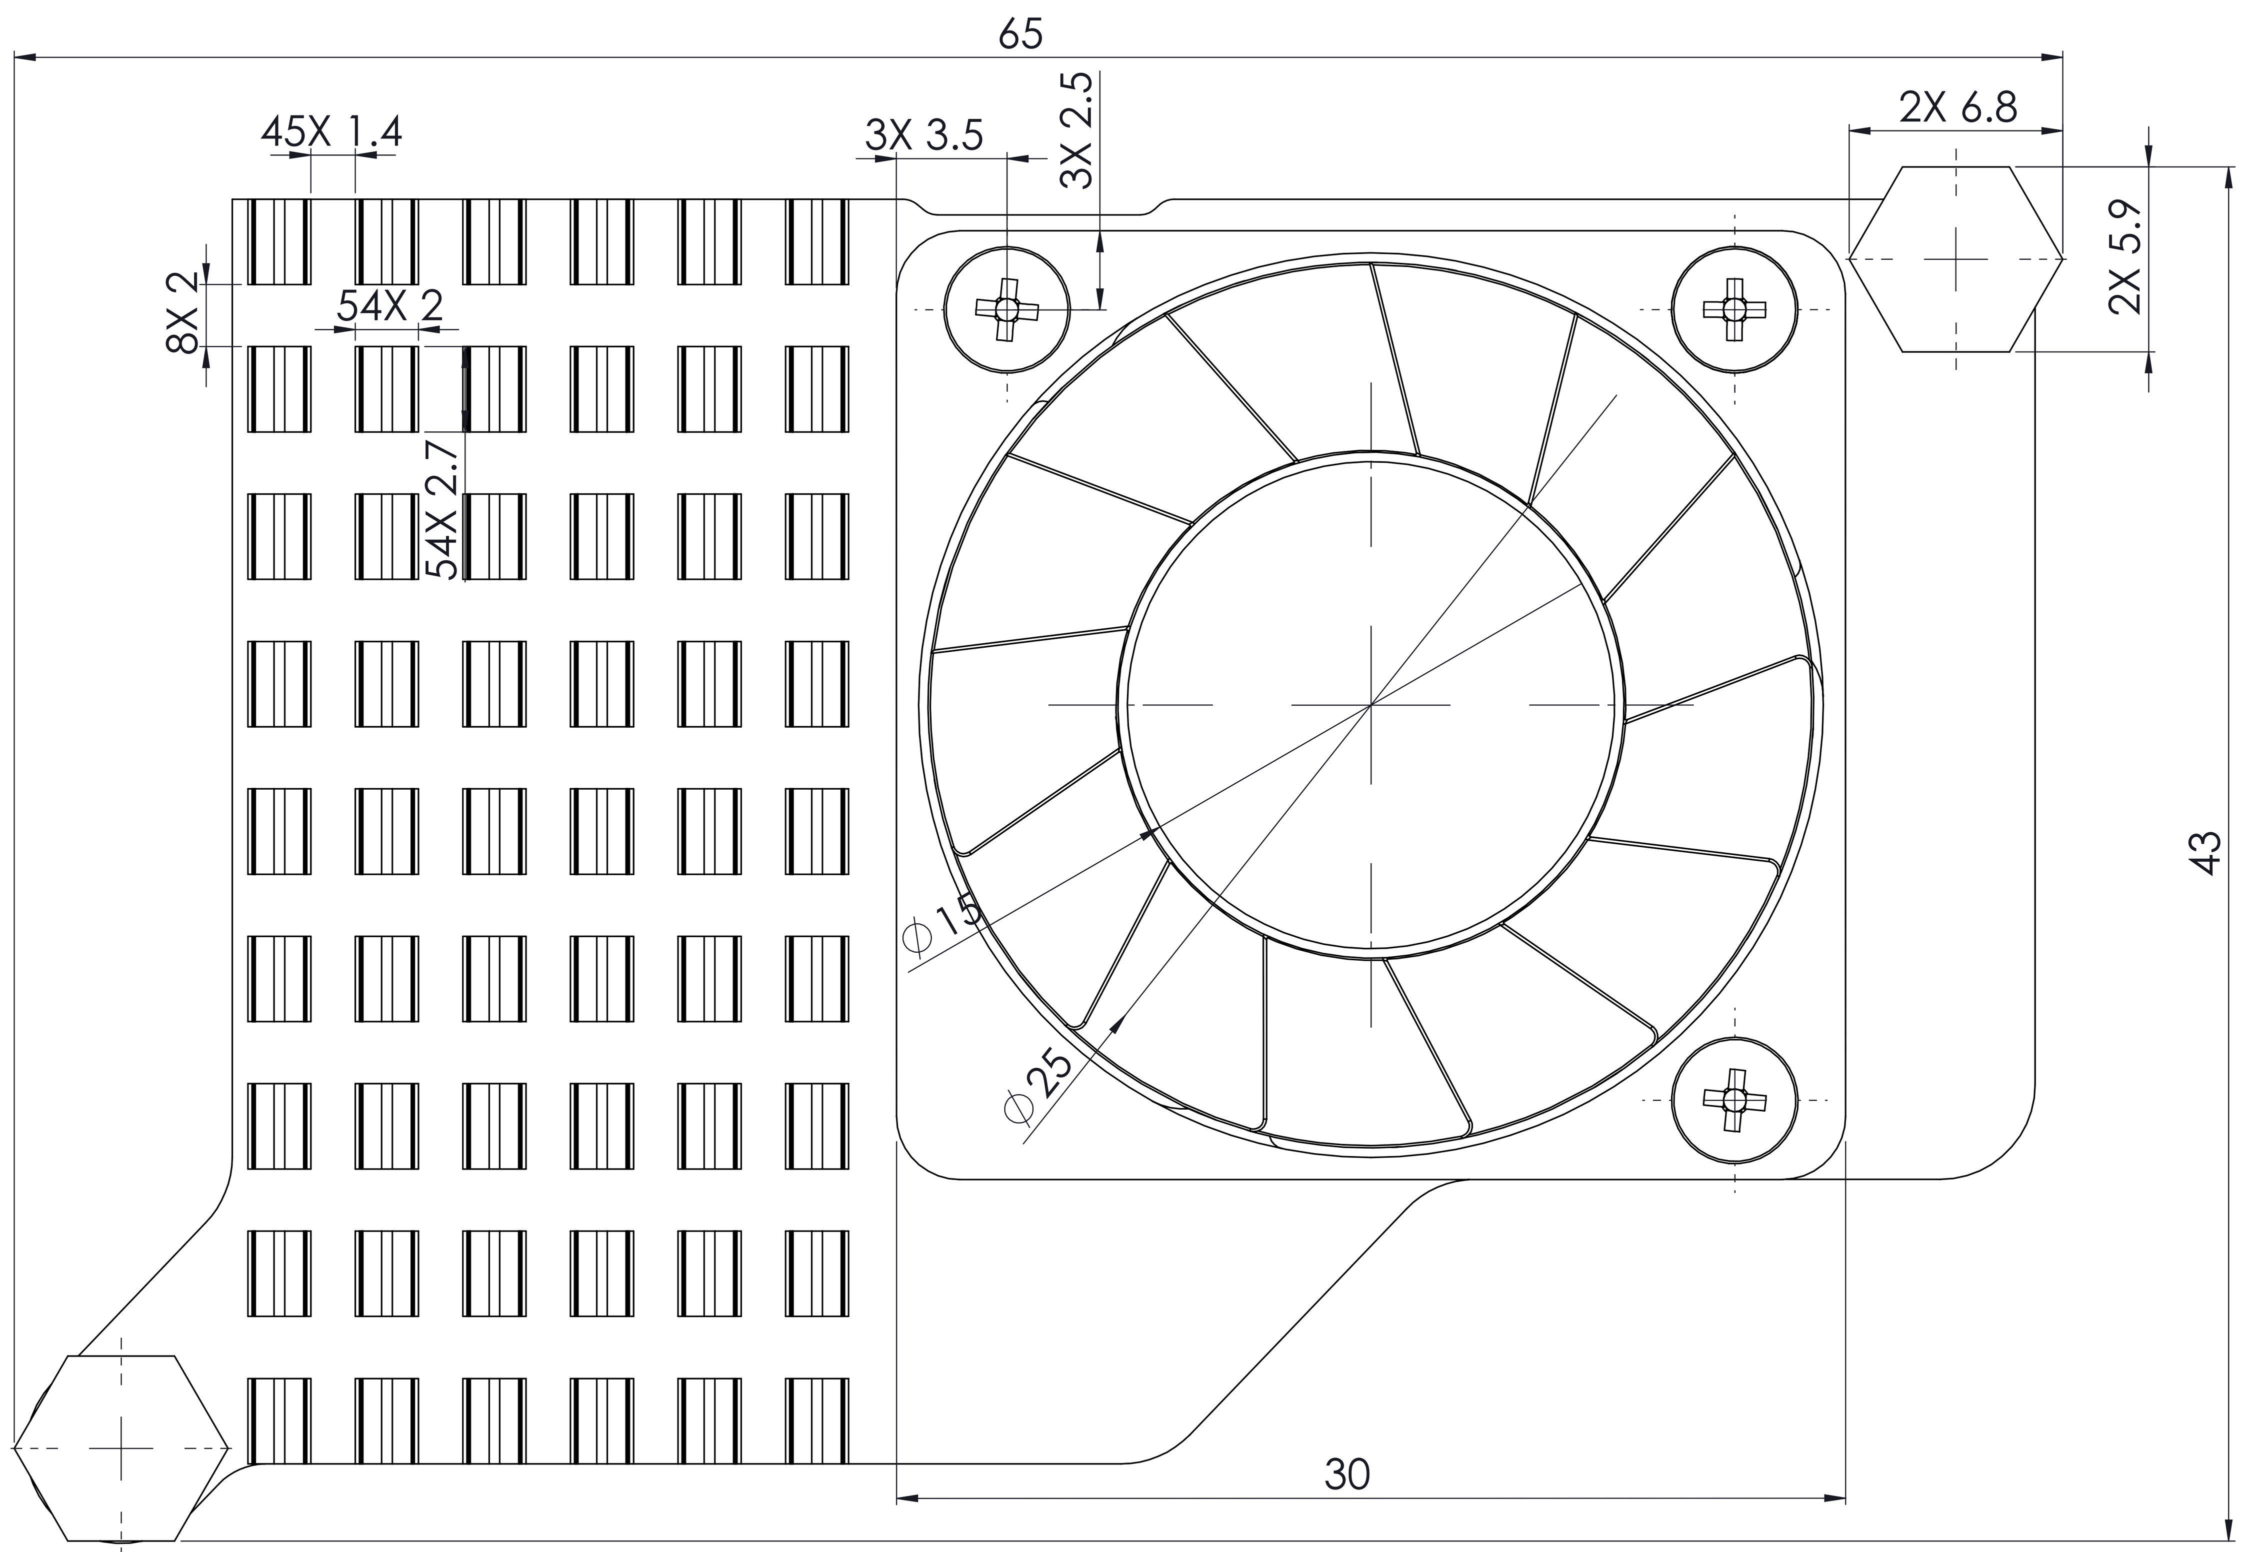
SECTION A-A
SCALE 5 : 1



1. Overall dimensions are 65 x 43 x 14 mm
2. Active cooler operates on 5V DC via 4-pin header
3. The active cooler mounts on the Raspberry Pi 5 via the dedicated springed screws.
4. The assembly has a total weight of 28 g.
